

Start with the first five feet.

Your Zone 0 readiness checklist

- ☐ **Clear the first five feet**
Clear dead leaves and debris from the area within five feet of structures.
- ☐ **Look up, too**
Clear dead leaves and debris from roofs and gutters.
- ☐ **Review nearby materials**
Consider noncombustible surfaces such as gravel or pavers near the home.
- ☐ **Check your decks**
Review what is stored on and under decks.
- ☐ **Look for ember entry points**
Inspect vents, roof edges, gutters and other openings. Consult a qualified professional and your local fire authority about your property and applicable requirements.
- ☐ **Keep your evacuation plan ready**
Prepare a go bag, identify evacuation routes, and sign up for official local emergency alerts. Follow local authorities and evacuate when ordered.
